

N95 Respirator Qualitative Fit Testing

(also applicable to N99, N100, R95, R99, R100, P95, P99, P100)

Respirators which do not seal properly around the face offer only the illusion of protection!

Our respirator fit testing can be used in a variety of occupations including the following:

- Medical Practitioners
- Hospital & Health Services Staff
- Automotive technicians
- Factory & Construction workers
- Fire fighters & Emergency persons
- Painters & Fine Art practitioners
- Chemist & Pharmacists
- Police Officers & Security personnel

Qualitative Fit Testing (QLFT):

- Utilize methods accepted by **USA OSHA**
- Based on the OSHA Respiratory Protection Standard **29 CFR 1910.134**
- BOTH Saccharin (tastes sweet) & Bitrex (tastes bitter) testing agents available
- Requires personnel to detect leaks via taste/smell of test substance
- Provide **Pass / Fail** Test Rating
- Persons must be tested with the same make, model, style & size of respirator which will be used in the workplace
